

# THE DAILY CRITIC.

Established August, 1868.  
OFFICE, 511 NINTH STREET.

## WEATHER INDICATIONS.

For the Middle Atlantic States, cold cloudy weather, with light rains, winds mostly northeasterly, higher barometer.

### Special Bulletin.

The indications are that the weather will be fair in the Lake Region and New England to-morrow and rain will prevail in the South Atlantic.

### The Mount Vernon Regatta.

Hon. W. W. Corcoran, Gen. N. N. Halsted, Judge Chas. B. Ball, of the advisory committee; Hon. H. W. Thomas, Major B. H. Noland, J. M. Forbes and Major R. W. Hunter, of the Board of Visitor of Virginia, and Miss Alice Longfellow and Mrs. Ella B. Washington, vice regents, were among the new arrivals at Mount Vernon yesterday. The morning session of the council was devoted to the consideration of various reports. The statement of Superintendent Hollingsworth showed that 13,921 passengers by boat and 350 by land visited the mansion and grounds during the fiscal year. Receipts, \$10,834.50; expenditures, \$10,335.68; balance, \$498.82. The report recommended the restoration of the deer park that existed in Washington's time, and a general treatment of the farm with reference to improving the soil. The report was approved. The Virginia Board of Visitors extended the regent and vice regents an invitation to visit the Yorktown centennial celebration. Speeches urging its acceptance were delivered by Hon. W. W. Corcoran and others, but it was not positively accepted, on account of the distance many members of the council live from Yorktown. The banquet was served in the Massachusetts room. Regent Laughton presided. After the banquet, champagne, on invitation of Mr. Corcoran, was served under the trees.

### Movements of Naval Vessels.

The Constitution and the Powhatan passed Cape Henry this morning, bound for Newport, R. I.

The Speedwell left the Washington Navy Yard yesterday with freight for northern navy yards and stations.

Lieut. R. M. Berry, commanding the Rodgers, writes to the department under date of Mare Island, Cal., June 24, in which he returns thanks to Secretary Hunt for the assurance of the confidence reposed in him and for the kindness of the sentiment expressed. He states that the Rodgers has been fitted to his entire satisfaction at that yard, the commandant and officers in charge of departments having evinced an interest in fitting her, little less than had they been going in her. All is now in readiness to sail as soon as some of the freight from the east, which has been delayed, arrives. I am anxious to be off at the earliest moment, so as to lose none of the coming season.

### W. L. I. Excursion.

The first of a series of complimentary excursions to be given during the season by the Washington Light Infantry corps to their friends occurred last evening. The steamer Arrowsmith left her wharf about 6:30 o'clock with fully 600 persons on board, for Marshall Hall, where a large number kept their seats to avail themselves of the delightful ride down the river as far as Indian Head. The entire party arrived home shortly after 12 o'clock. All seemed to be well pleased with their trip, and will look forward with joyous expectation to the next excursion.

### An Early Morning Fire.

The alarm of fire at 2 o'clock this morning was caused by a blaze discovered in a stable back of No. 921 D street northwest, owned by George Norbeck. Three horses and some carriages were in the stable at the time, but were saved through the promptness of the fire department. The damage is chiefly reported to be very slight, although it has been variously estimated. No cause for the fire is known.

### A Colored Lunatic.

A colored man of about 60 years, who is supposed to be insane, was found, having fallen in a fit, on Bridge street, near Market yesterday, when a servant girl accidentally let a coffee pot full of boiling coffee fall upon them, burning and scalding very seriously, but not dangerously. Dr. Hurlbert rendered medical aid.

### Congestive Chills.

Margaret Murphy, a white woman, of 56 years, died suddenly at 3 p. m. yesterday, and heart disease was the cause assigned. The coroner to-day viewed the body and found that death was caused by a violent and sudden congestive chill.

### Scalded by Hot Coffee.

Shortly before eight o'clock this morning, Mrs. Washington Edelin, residing on G street southeast, between Ninth and Tenth streets, was sitting with her child on her knee, when a servant girl accidentally let a coffee pot full of boiling coffee fall upon them, burning and scalding very seriously, but not dangerously. Dr. Hurlbert rendered medical aid.

### A Dishonest Manager.

Mr. A. B. Schofield has placed the members of the Sovereigns Co-operative Association in a painful predicament; he disappearing with all their available funds. The association have appointed a committee to investigate, and the aid of the police authorities has not, and probably will not, be asked.

### Where were the Police.

An unoccupied house, in the heart of the city (on G street, between Tenth and Eleventh), was entered one night this week and a large thirty-gallon boiler, a quantity of lead pipe, the lining of two bath-tubs and many other articles of value carted off. The entrance was effected by the back cellar window.

### Treasury Notes.

Government receipts to-day: Internal revenue, \$324,409.67; customs, \$1,501.11. The national bank notes received for redemption to-day amounted to \$195,000.

The commencement exercises, which were to take place on Friday, have been postponed, and will take place on Thursday evening, the 16th inst., in the Congregational church, at 8 o'clock.

An Emphatic Denial.—Drs. Howland and Mason say: "The statement of the colored man Wm. Joyce that we fractured his jaw is entirely untrue, and the evasive denials which advise a suit so that the name of the thing will injure us, and who encourage the said Joyce to blackmail us in the name of compromise, will find in the end that they will injure themselves more than us."
